Mr. George M. Bacon,
State Engineer,
Salt Lake City, Utah.

Re: Bowl Creek Dist.

Dear Sir:

This will acknowledge receipt of your letter of June 25th, enclosing copy of letter from S. E. Tanner, Water Commissioner.

Mr. Pace was in our office some two or three weeks ago and inquired as to whether or not there had been an appointment of a water commissioner for Bowl Creek, and stated that one Tanner had been attempting to assert some authority along this line.

When Mr. Pace was here we called your office and were informed by some one in the office that there had been no appointment of a water commissioner. Will you kindly inform us as to the facts relative to Mr. Tanner's appointment, giving date of appointment, etc.

Of course the difficulty which presents itself in dividing the water between Pace and Halls is that Pace has a prior water right for a certain amount and then an additional right which is inferior to Halls claim. However, since the water will not reach Halls, Pace, of course, is entitled to take out this additional water also. When the water in high season will reach Halls there is plenty for both and Pace's ditch would form no hindrance, as we understand the situation, to Halls obtaining water.

Yours very truly,

SENIOR & SENIOR
